Respect

Emergency Action Plan

The Emergency Action Plan for Hough End Griffins JFC details the procedures in the event of an injury or incident during a game of football (or a football training session) involving a Hough End Griffins team.

Prior to any games taking place either Home or Away, it is imperative that each team for all age groups from U7's to U16's must always have at least one current FA Emergency First Aid Trained person accompanying the team (usually the Team Coach) together with an adequately stocked First Aid bag available at all matches & training sessions.

All Team Coaches/Managers are reminded that they should refresh their First Aid qualification at least every 3 years at an FA First Aid Workshop. The responsibility lies with the respective individual Coaches to ensure that Certificates are in date. (NB. First Aid Certificates from work are NOT admissible).

EMERGENCY FIRST AID LIST

Below is an essential list of Emergency First Aid items required for each team Coach/First Aider for both home and away games.

1. Make sure you are aware of the local Hospital details close to the venue of the game.
2. Ensure your First Aid kit is equipped correctly & always available near the touchline. You should only carry and use medical items that you have been trained to use.
3. Mobile phone(s) must be charged & available or awareness of the nearest landline number.
4. Coaches should be familiar with all team players medical conditions (as noted on HEG Player Registration Forms).
5. Ensure a list of emergency contacts is available for each player.
6. Administer FA Emergency First Aid in line with FA 1st Aid workshop training & FA Dealing with an Incident/Accident.
7. Your Emergency First Aid qualification must always be up to date.
8. All serious injuries which require specialist medical treatment/ambulance must be recorded on the Hough End Griffins JFC Accident Report Form.
9. In advance request a nominated helper should one be required to assist you.
10. As a 'pitch side' First Aider you should be in a location where you can see the field of play and all the participants.
11. An ambulance should be called for as soon as possible once it is recognised that a player has a life threatening or serious injury/illness. If the players parent is not available a member of the club must accompany a player to hospital.
12. In the case of serious but not life threatening injury, the parent must be contacted as soon as possible.
13. NB. Hough End Griffins JFC do NOT have a defibrillator available for use.

EMERGENCY NUMBER 999

If you are unsure about any of these items or need assistance then please contact the Club Secretary or Club Welfare Officer.
